**Mommy's Hometown** - Hope Lim 2022-04-12

When a young boy and his mother travel overseas to her childhood home in Korea, the town is not as he imagined. Will he be able to see it the way Mommy does? This gentle, contemplative picture book about family origins invites us to ponder the meaning of home. A young boy loves listening to his mother describe the place where she grew up, a world of tall mountains and friends splashing together in the river. Mommy's stories have let the boy visit her homeland in his thoughts and dreams, and now he's old enough to travel with her to see it for himself. But when mother and son arrive, the town is not as he imagined. Skyscrapers block the mountains, and crowds hurry past. The boy feels like an outsider—until they visit the river where his mother used to play, and he sees that the spirit and happiness of those days remain. Sensitively pitched to a child's-eye view, this vivid story honors the immigrant experience and the timeless bond between parent and child, past and present.

*Know Better, Do Better* - Meredith Liben 2019-05-28

Meredith and David Liben have spent decades transforming education, working as teachers, researchers, leaders, and founders of an alternative public elementary school in Harlem—the Family Academy. The Libens have been on the front lines of the reading wars since 1994, when the Family Academy's first cohort of students failed the NYC end of year reading exam and they were confronted with the question: How can a school with plenty of resources, dedication to outstanding instruction, and support for social and emotional learning fail so spectacularly at teaching children how to read? The answers are collected here in *Know Better, Do Better: Teaching the Foundations So Every Child Can Read*. The Libens have poured through the research, pedagogical movements, and deeply entrenched classroom myths to find the literacy practices and instructional materials that actually improve student learning outcomes.

Through their work, the Family Academy reading scores rose to the highest of any non-"gifted" school in Harlem. The best of intentions aren't enough to make children literate; educators have to know better so they can do better.
